Not Fruitless.

A man who has spent a busy year sits down for a little retrospect. He falls into a moody frame, and in a tone of regret says: "I have worked all the year through, but there is hardly anything to show for it; my work has had no permanence."But a good spirit was beside him and she said: "My dear, do you remember those flowers that grew right out there? Those roses, petunias, heliotropes, geraniums, and most of all that beautiful lilium auratum? Well they are all gone. Not one of them had any permanence, you cannot even find a stem to tell that they existed. And yet they were beautiful while they lasted filling the air with fragrance, pleasing the eye of all who saw them, and they are remembered still by many persons to whom they were messengers of gentleness." And the moody shadow seemed to break away from his brow, giving place to a smile and an air of satisfaction. But later in and she was weary, heaving a sigh, ime now, and looking up cheerily se said: "Not so, my dear. Do you ee that tree over there, that noble growing all over the scalp.
